Meth in Your Backyard Seminar, Sept. 20

A "Meth in your Backyard" seminar will be held Wednesday, September 20, in the Caston High School cafeteria. The evening will start with a free chicken dinner and dessert from 5:30 to 6 p.m. Law enforcement personnel will speak from 6 to 7 p.m. The keynote speaker, Dr. Mary F. Holley, will address those assembled from 7 to 8 p.m. Deborah Moss, meth support group facilitator, will take the floor from 8 to 8:30 p.m. This will be followed by a panel discussion.

The seminar will discuss the effects of meth on the body, mind and spirit.

Dr. Holley is the founder and director of "Mothers Against Methamphetamine", a national drug education organization started in 2001. She has also produced numerous videotapes to educate the public about the devastating effects of methamphetamine.

Dr. Holley has seen first hand the destruction caused by methamphetamine. "Mothers Against Methamphetamine" was conceived in the aftermath of the suicide death of her brother Jim, who was 24 at the time of his death on the 4th of July 2000. After his death Dr. Holley investigated the effects of meth on the human brain and what she found out was appalling.

Crystal Meth: The High is a Lie includes a general description of methamphetamine, what it looks like and what it is made out of, stages of addiction and a brief description of the basic physiology of the drug as it impacts the brain cell. She also describes the impact of meth on the personality of the user, his relationships and thought patterns.

Other topics will include the plight of drug endangered children – even before birth. Risk factors for addiction are discussed particularly as they relate to the young people in the audience.

After meth personally touched Mary F. Holley MD, life with the death of her brother, she diligently researched meth and its consequences. As a medical doctor, she was shocked at what she learned, and you will be too. Come hear her speak at the Meth in Your Back Yard Rally at Caston High School, Sept. 20.

Baptist Church to Honor Those Who Serve

There will be no program, no involvements, just a chance to enjoy a meal with fellow "town helpers" prepared by people who really appreciate what you do.

This faith based program also offers hope – to the family and to the addict. Addicts are offered forgiveness, dignity and respect as they battle the evil of meth. Tough love is discussed, and parents are empowered to take authority over their children.

The beauty of this presentation is that parents learn what their children are up against, the family of the addict hears what their loved one is dealing with, and youth and addicts understand what their parents are going through. Everyone comes away enlightened and empowered to take real positive action in their family and community.

The seminar is sponsored by the It's Your Life or Meth Support Group; Promised Land Church; the Fulton County Drug Free Council and the Twelve Mile United Methodist Church. Business owners, healthcare providers, teachers, volunteer fire department personnel, pastors, community leaders, family members of addicts and those currently addicted are urged to attend this important meeting.

METZGER LANDSCAPING & DESIGN LLC

Fall Lawn Fertilization

By Leesa Metzger, Metzger Landscaping & Design, LLC
Professional landscape designer and former agriculture, botany, and horticulture teacher answers local reader's questions about gardening, plant care and maintenance, and flowering choices.

Q. What number combination is the best for fall fertilization? For years I have been following the Scott method as they describe in their ads; spring, summer, fall etc. and my grass is not great. I could sure use your advice. —Joyce P.

A. Timing of the fall lawn fertilizer application is as important as what rate in which you apply. Three fertilizer applications per year are usually enough to attain a moderate to high quality lawn. The first application for the year is best applied in early May. The second fertilizer application should be made in early September and the final application to be made in late October/early November.

Early September is an ideal time for lawn care such as dethatching, weed control and of course fertilization. When fertilizing lawns this fall, key decisions include choosing a quality fertilizer and applying the correct amount.

The main concern for lawns is adding nitrogen, which helps give a nice green color. When looking at the fertilizer bag, the three numbers represent nitrogen, phosphorus, and potassium, in that order. Phosphorus is generally not suggested in significant amounts unless a soil

test has shown a deficiency. Potassium is used for hardness of the plant, however, and is commonly found in winterizer fertilizers sold in fall.

Look on the fertilizer package, usually on the back, for the guaranteed analysis. This section tells more about the nitrogen and other nutrients in the package. Look for controlled-release nitrogen in the product. Controlled-release nitrogen, often referred to as slow-release or perhaps extended feeding on the package, will release smaller amounts to the grass over a longer period of time and won't "burn" the grass leaving brown spots. This leads to more uniform growth, a healthier lawn and is well worth the money.

In early fall use a regular lawn fertilizer with N-P-K ratios of 3:1:2 or 4:1:2. For example, a bag may list 21-7-14 or 32-8-16. Amounts don't need to be exact but should be similar to the suggested ratios.

Kentucky bluegrass and perennial ryegrass lawns in sun should receive 1 to 4 pounds per 1000 square feet of actual nitrogen every year. A rate of 1 pound of nitrogen per 1000 square feet is recommended for each fertilizer application. Lawns and other plants in shade grow slower and don't need as much nitrogen as plants in full sun. Therefore, shady lawns should be fertilized at half the recommended rate.

A little math will show you how much fertilizer you need to put on the lawn to get 1 pound

per 1000 square feet. Divide 1 by the first number in decimal form (percent of nitrogen) on the fertilizer bag. Multiply that by the square footage of your lawn, then divide by 1000. The answer will give you the total pounds of fertilizer you need to apply to the lawn.

Here's an example: you have 15-5-10 fertilizer and a 7000 square foot lawn. One divided by 0.15 equals 6.7. Multiply 6.7 by 7000 for 46,900. Then divide by 1000 for the answer of 46.9 or 47 pounds. So you would need to put 47 pounds of 15-5-10 spread over the entire lawn to properly fertilize it.

Hold off on applying "winterizer" fertilizers until late October or early November. Late fall fertilizer application is targeted for about when the lawn stops growing but the ground is not yet frozen. The later we get into November, the less likely the fertilization will be beneficial. If in doubt, skip the application altogether.

Whether fertilizing once, twice, three times or more a season, early September is a key time. If the lawn is dry, fertilize right after a rain or irrigate ahead of time for the best results.

By: Julie Brown (574) 653-2451

Wednesday, Aug. 23, Ruth and Mike Cogdill were in Winamac at the home of Ruth's daughter and son-in-law, Linda and Gordon Ligocki. They were celebrating the first birthday of Ruth's great-grandson, Roan Peterson. Guests included Roan's parents, Renata and Joe; his sister and brother, Lilly and Doran; Grandfather Dr. Charles and Deb Heinsen and Chantel; and family friends, Ruth Ann and Dick Conner. The group enjoyed the strawberry cake prepared by Grandma Linda and lots of ice cream (of course). It was a fun-filled evening for everyone.

Sunday, Aug. 27, Mike Cogdill treated Ruth Cogdill to a night out. They drove to Michigan City. The two spent the evening at the "Blue Chip" Casino and stayed at the Hampton Inn Motel. They both love "Vegas", so they enjoyed this fun night playing the nickel slots.

Helping her celebrate Friday, Sept. 1, were her parents, Dr. Dennis and Leslie Halterman; her grandparents, Jim and Becky Lincoln of South Bend; her great-grandmother, Ruth Ann Anderson; and her aunt and family, Sara and Adam Edwards and Kahlan. They took a tour of the South Bend Chocolate Factory and dined out at Logan's restaurant.

Jackie Heidenreich and John Lincoln enjoyed dining at Lynn's Coffee Shop Friday and meeting the new owner.

Don and Doris Woolington and Rich and Marilyn Hoff had a nice time dining out together Friday evening. Afterward, they returned to the Woolington home for a few games of dominoes.
